Digging into Emotions and Emotional Intelligence

This session was all about building a solid understanding of emotions and Emotional Intelligence. In particular, we focused on the five 'E-Skills' that underpin Emotional Intelligence, and how you currently use those skills. These exercises provide you with an opportunity to dig deeper and not just consolidate and expand your knowledge in this area, but also identify ways that you can apply that knowledge in your day-to-day-life. You can complete the exercises online by completing each of the questions, below, or you can use your workbook PDF.

Exercise 1: General Principles

In this exercise, you will explore your understanding of emotions, including what they are and why we experience them. Follow the instructions below and write your responses in the spaces provided.
